COMPUTER SCIENCE FINAL YEAR PROJECT

- Presentation & Competition -

Innovation was on full display at Peninsula College Georgetown during our recent Computer Science Final Year Project Competition. A panel of academic and industry experts evaluated 26 cutting-edge projects from our diploma and degree students, spanning advanced cybersecurity to AI-driven recruitment. This event proudly highlights the brilliance, drive, and industry-readiness of our future tech leaders.

SHAPING THE FUTURE: LOGISTICS INNOVATION DAY 2026

On March 31st, Peninsula College Georgetown's campus was buzzing with fresh ideas as students took center stage for Logistics Innovation Day 2026.

Instead of just studying supply chains, our logistics diploma students built them. They pitched creative models and hands-on solutions designed to tackle real-world industry challenges – proving they can seamlessly turn textbook theory into critical, problem-solving action.

The energy didn't stop at the exhibition. A student-run Food Festival kept the campus lively, bringing students, lecturers, and staff together over great food and even better conversations. The Bottom Line Events like this are experiential learning at its best, perfectly reflecting the college's commitment to industry-relevant education.

A huge thank you to the organising committee, lecturers, and every student who brought their A-game. Your hard work made this celebration of innovation and collaboration a massive success!

IRIV PICONROL INDUSTRY 4.0 WORKSHOP

We are thrilled to share that our School of Technology and Engineering (SoTE) lecturer recently completed the intensive IRIV PiControl Hands-On Workshop by Cytron Technologies. Over two practical days, they gained hands-on experience in real-time IIoT ecosystems (using Node-RED, Blynk, ThingSpeak, and MQTT), Linux embedded systems, and industrial automation.

A special thanks to Mohd Khairi Kamaruddin for arranging the workshop and Muhd Qhaiyyum for the insightful training. We are excited to bring these fresh, practical industrial insights back to our classrooms and labs here at Peninsula College Georgetown to drive innovation forward!

Written by: Dr S.M. Kueh

IRIV PICONROL INDUSTRY 4.0 WORKSHOP

Date : 5th and 6th May 2026
Time : 9:00 AM – 5:00 PM
Venue : Orbitron (Electronic Lab 708)

About Training
Hands-on IR4.0 training empowers lecturers and trainers to deploy industrial IoT solutions using IRIV PiControl, Node-RED, and Raspberry Pi CM4 through practical setup, wiring, and real-world applications. Don't forget to bring your laptop.

Training and Certification by:

PITCHING FOR A PURPOSE: ESG INNOVATION 2026

On May 26th, the School of Maritime Business & Logistics drove the campus sustainability conversation forward by hosting the Peninsula Pitching Series 2026: ESG Innovation for Sustainable Business. The high-stakes event challenged student teams to step out of the classroom and apply complex Environmental, Social, and Governance (ESG) frameworks to urgent, real-world industry dilemmas. Demonstrating sharp commercial awareness and entrepreneurial grit, the teams went head-to-head to pitch innovative proposals aimed at making businesses both profitable and socially responsible.

After an intense round of presentations evaluating creativity, critical thinking, and implementation feasibility, the competition concluded with a celebration of teamwork as cash prizes were awarded to the top three standout groups. For top management, lecturers, and peers alike, the event was a powerful display of our students' potential—proving that Peninsula College Georgetown is actively equipping future-ready maritime and logistics leaders with the exact sustainability skill sets today's global market demands.

HEALTH DAY 2.0

Health is more than just staying active, it's about understanding your body, building healthy habits, and taking small steps towards long-term well-being. PCN Health Day 2026 brought our campus community together for a day dedicated to health awareness, preventive care, and wellness.

Students and staff had the opportunity to participate in a variety of health screenings, body assessments, and interactive wellness activities designed to encourage healthier lifestyle choices. The event also provided valuable insights into physical health, nutrition, eye care, and overall well-being through engaging booths and consultations.

This meaningful event would not have been possible without the support of our partners: Georgetown Pharmacy, Ayo Mayo (Peanut Butter), SuuBalm, AA Active Physio Center, Life Factor, Optimax, and W Gallery. Their expertise and contributions helped create an educational and engaging experience for everyone.

Health Day 2026 served as a great reminder that looking after our health starts with awareness, prevention, and making informed choices, one healthy step at a time.

DISCOVERY CAMP 2026

TAMSC's Discovery Camp 2026 was a resounding success, bringing together fifty energetic students aged sixteen and seventeen from various schools for an engaging weekend. The event was full of life, and the vibe was absolutely electric! This achievement would not have been possible without the collaboration of our wonderful community. We deeply appreciate the staff at The Ship Campus for their support, alongside the academic personnel who dedicated their weekend to run workshops. Huge thanks also goes to the TAMSC committee members for planning everything, and our generous sponsors, especially Ts. Soon from TAM Penang, for empowering these future leaders!

LBT CONFERENCE 2026

On Saturday, 27 June 2026, we successfully hosted the Logistics, Business and Technology (LBT) Conference 2026 at The Ship Campus. The event brought together students, educators, and professionals to explore our timely central theme: "Fortifying the Chain: Resilience in a Volatile World."

It was a highly engaging and productive morning. Key moments from the conference included:

- Expert Insights
- Academic Excellence
- Networking & Recognition

Thank you to everyone who participated, presented, and helped make this event a resounding success for the Peninsula College community!

LOGISTICS, BUSINESS AND TECHNOLOGY CONFERENCE 2026

SHAPE THE FUTURE, CODE THE CHANGE: WHEN TECH MEETS LOGISTICS

On 23 May 2026, Peninsula College Georgetown's "Shape the Future, Code the Change" competition challenged secondary students to bridge web development with logistics. Following intensive technical workshops, finalists delivered impressive live pitches to an esteemed panel: Mr. Kuan Eu Jin (CRO, PKT Logistics Group), Mr. Maniraja Kaliappan (COO, Bukit Kayu Hitam ICD), and Mr. Chin Yit Kwong (Head of Technology & Engineering, PCG).

Congratulations to Champion SMJK Chung Ling Butterworth, 1st Runner-up SMJK Sacred Heart, and 2nd Runner-up SMK Jalan Damai! A huge thank you to Zus Coffee for fueling the high-energy finale, and to our dedicated faculty advisors—Ts. Choong Hui Ping, Mr. Eric Kong Kok Wah, Ms. Umi Kalthum Binti Abu Bakar, and Ms. NorAin Binti Mohammad Sopian—for mentoring tomorrow's innovators.

EXPLORE PENINSULA DAY 2026

Written by: Izzah Hazirah Binti Azilan

On 4–5 April 2026, Peninsula College Northern welcomed SPM graduates and the public to The Ship Campus for Explore Peninsula Day 2026. Designed to guide future students, the lively event offered personalized consultations, interactive game booths, and a vibrant glimpse into campus life. A major highlight was the hands-on exhibition by the School of Engineering and the School of Logistics. Visitors were captivated by student-led academic projects and practical innovations—including engaging cryptography booths featuring digital Enigma machine infographics—that perfectly showcased the College's commitment to industry-relevant education.

The two-day event was a resounding success, drawing an encouraging turnout of future innovators. Driven by the dynamic atmosphere and meaningful interactions with staff and students, many attendees confidently took the next step in their academic journey by completing their enrolment on the spot.

COMMUNITY SERVICE STUDENTS SUPPORT TURTLE CONSERVATION AT PENANG NATIONAL PARK

Written by: Izzah Hazirah Binti Azilan

On 6 April 2026, students from Peninsula College Northern's Community Service course, led by Encik Mohamad Khairuddin, participated in a hands-on conservation programme at the Turtle Sanctuary in Penang National Park.

A few key activities was conducted as part of the community service.

- **Beach Clean-up:** Students collected litter along Pantai Kerachut to help preserve the local marine habitat.
- **Turtle Release:** At sunset, the group helped release baby sea turtles into the ocean.

Purpose and impact of these activities:

- **Environmental Awareness:** The programme educated students on the sanctuary's critical role in protecting endangered sea turtles.
- **Skill Building:** The hands-on experience successfully reinforced core course values including teamwork.
- **Community Engagement:** The initiative highlighted the college's commitment to fostering a positive societal impact.

PDRM TALK – ANTI BULLYING & SCAM

Written by: Tengku Aishah Nerina

Scams are getting smarter, and bullying can happen in more ways than we realise whether face-to-face or online. That's why the Student Services successfully organized the PDRM Talk: "Lindungi Diri: Cegah Buli dan Elak Menjadi Mangsa Scam" to help students stay informed, aware, and prepared.

During the session, officers from PDRM shared practical tips on identifying common scam tactics, protecting personal information, and taking the right steps if approached by scammers. They also highlighted the importance of recognising different forms of bullying, speaking up when something isn't right, and creating a campus culture built on respect and support.

More than just a talk, the session reminded us that staying safe starts with awareness. Whether it's thinking twice before clicking a suspicious link or standing up against bullying, every small action makes a difference. Huge thanks to PDRM for the insightful sharing and to everyone who joined the session, let's continue building a campus that's smarter, safer, and stronger together.

INDUSTRY VISIT @ DELL

MALAYSIA

Written by: Tengku Aishah Nerina

Learning goes beyond the classroom, and our recent Industry Visit @ Dell Malaysia gave students the opportunity to experience the tech industry up close.

During the visit, students gained valuable insights into Dell Malaysia's operations, workplace culture, and the latest innovations driving the technology industry. They also had the chance to learn from industry professionals, explore real-world applications of their studies, and discover the skills and mindset needed to thrive in today's fast-evolving digital landscape.

More than just a company tour, the visit bridged the gap between academic learning and industry practice, inspiring students to explore future career opportunities while expanding their understanding of the professional world. Experiences like these continue to empower our students to learn, connect, and prepare for the future with confidence.

NATIONAL SUSTAINABILITY REPORTING FRAMEWORK

Written by: Ms. Rachel Soong

Excited to share that our lecturers, Ms Norain, Ms Rachel & Dr Gabriel, recently delivered a 1.5-hour online session to our accounting degree students at Peninsula College on the National Sustainability Reporting Framework (NSRF): Aligning with IFRS S1 & S2. Together, we explored the NSRF and its implementation timeline, unpacked the general requirements under IFRS S1, and examined climate-related disclosures under IFRS S2, before discussing what lies ahead for the profession. As sustainability reporting becomes increasingly vital in today's business landscape, sessions like these are part of our ongoing commitment to ensure our students graduate not just with knowledge, but with the practical awareness and skills needed to stay relevant and employable in a rapidly evolving accounting world.

OBE TRAINING

Written by: Bryan Chew

Peninsula College hosted a full-day Outcomes-Based Education (OBE) training session for its academic staff on 13th May. The workshop, titled "Module 4: Understanding Table 4 Requirements," was conducted from 9:00 AM to 5:00 PM by trainer Grace Tok Bee Choo to align curriculum designs with Malaysian Qualifications Agency (MQA) standards.

The training focused on interpreting Table 4 requirements, emphasizing the constructive alignment between Programme Learning Outcomes (PLOs), Course Learning Outcomes (CLOs), and Student Learning Time (SLT). Faculty members engaged in practical sessions to develop and evaluate CLO-PLO mapping matrices, ensuring balanced curriculum coverage and continuous quality improvement. The session concluded with a Q&A segment, leaving the academic team equipped to implement these rigorous quality assurance standards into their program blueprints.

PENINSULA COLLEGE PLACES TOP 5 IN JABIL IT BOOTCAMP 3.0

Written by: Ts. Choong Hui Ping

On 2nd July 2026, Peninsula College Georgetown celebrated a national achievement as BSc (Hons) in Computer Science (Cyber Security) students Neoh Jia Yi, Chai Yee Pei, Varshini Seger, and Low Jia Hui (Team Girls Power) placed in the Top 5 Finalists out of 104 contestants at the Jabil IT ECP Bootcamp 3.0: Data & AI Innovation, securing a Consolation Award. Sincere appreciation also goes to Team Hoppers for their strong performance in the preliminary rounds.

Supported by the School of Technology & Engineering, the finals allowed students to network with industry leaders and gain key insights into AI governance. Special thanks to the organizers and mentors at Jabil for their constructive guidance in bridging classroom learning with real-world industry application.
